

Join the Movement! Together, Let's Launch & Build a **Compassionate Community**

Friday, February 23, 2018

1 PM - 3 PM

Burnhamthorpe Community Centre

Fleetwood Village Room

1500 Gulleden Dr., Mississauga

It is time to **RETHINK** how we do things: How we look after, and connect with, each other today and every day because **building a community that cares for each other makes us happier, keeps us healthy and makes us live longer**. Loneliness and isolation are toxic especially if you are living with a serious illness, caring for someone or grieving for someone.

Dying

is not fundamentally a medical event, it

is a social event

that happens in the family and community.
